

# SIR CHARLES GAIRDNER HOSPITAL

Sir Charles Gairdner Hospital offers Edith Cowan University Nursing students the opportunity of a clinical partnership beginning in stage 2 through to completion of stage 6 in the Bachelor of Nursing undergraduate program.

The benefits of a partnership with Sir Charles Gairdner Hospital are:

- A sense of belonging within an acute tertiary hospital and an opportunity to develop familiarity within the SCGH's supportive environment. For example
  - Geographical location of SCGH
  - How to use the paging system
  - Tea and coffee cards
  - Nursing documentation

Becoming familiar with SCGH allows you to gain the most from your clinical practice experience.

- A comprehensive orientation and further ongoing support in subsequent clinical placements.
- Welcome by the Director of Nursing with morning tea.
- Familiarisation of policies and guidelines within SCGH
- Clinical Supervisors are employees of SCGH who are familiar and experienced within the clinical areas.
- Opportunity to establish a link within SCGH for future career pathway development
- Clinical placements offering rotations to a variety of medical and surgical clinical areas including specialty areas such as Intensive Care, Coronary Care, Emergency, Theatres High Dependency areas, Mental Health, Liver transplant and Renal Dialysis units Oncology, Neurology, Neurosurgery, General Medical/Surgical and Respiratory medicine
